

Diversity

Regional HIV/AIDS Connection respects the diversity of people who bring a variety of cultural, social and historical backgrounds, styles, perspectives, values and beliefs as assets to the groups and organizations with which we interact.

Diversity describes the range of visible and non-visible differences that exist among people. By embracing diversity we harness these differences to create a productive environment in which everybody feels valued, where talents are fully utilized and in which organizational goals are met.

Regional HIV/AIDS Connection operates within in a framework of practices and policies designed to facilitate the creation of a safe and affirming environment for all who access services, work or volunteer at RHAC.
